PREK 3 EXPLORERS' SCHEDULES

Our monthly, weekly, and daily schedules help us stay organized and allow us to offer a variety of programs for every child in our care. Children who have predictable and familiar daily activities feel more confident and secure.

According to the Early Childhood Learning and Knowledge Center, schedules help children:

- Feel in control of their environment
- Feel safe, secure, and comfortable
- Understand what is happening now and what comes next
- Know how to complete an activity or task
- Engage with the programming and activities they love

When our Explorers feel comfortable and have fun, they are likelier to try new activities, expand their creativity, enhance their problem-solving skills, and see their confidence soar to new heights!
