Let's Paper Engineer!

1. Print out the dice and cut them out.
2. Fold on all the lines.
3. Tape together.

Let's Create and Play!

You will roll the dice three times and what you roll will determine what you draw.
1. Roll the dice. Go to the adjective column and skim down to the number you rolled. For example, if you rolled an "4" your adjective would be "fuzzy".
2. Roll the dice again. Go to the verb + ing column and skim down to the number you rolled. For example, if you rolled an "7" your verb + ing would be "crying".
3. Roll the dice a third time. Go to the noun column and skim down to the number you rolled. For example, if you rolled an "8" your noun would be "tree".
4. Draw a "fuzzy crying tree".
